

## **33rd European Symposium on Hormones and Cell Regulation**

### **Understanding the Molecular and Cellular Biology of Endocrine-Related Cancers**

*Mont Ste Odile, Alsace, France, 11-14 September 2008*

The 33rd edition of the Mont Ste Odile Symposium will be devoted to Understanding the Molecular and Cellular Biology of Endocrine-Related Cancers. This three-day symposium will focus mainly on thyroid, mammary, ovary and prostate cancers and their stem cells.

#### **Invited Speakers**

Reuven Agami (The Netherlands), Manuela Baccarini (Austria), Allan Balmain (USA), Daniel Birnbaum (France), Anne-Lise Børresen-Dale (Norway), Carlos Caldas (UK), Manuel Collado (Spain), Anne Collins (UK), Ruggero De Maria (Italy), Jacques E. Dumont (Belgium), Alfredo Fusco (Italy), Thorsten Hagemann (UK), Barbara Jarzab (Poland), Jürgen Knoblich (Austria), David T MacLaughlin (USA), Jean-Christophe Marine (Belgium), Sylvie Mazoyer (France), Massimo Santoro (Italy), Giorgio Stassi (Italy), Costantine A. Stratakis (USA), Jan Trapman (The Netherlands), Gareth H. Williams (UK), Dillwyn Williams (UK)

#### **Main Topics**

Molecular genetics of thyroid cancer  
General aspects of cancer initiation and progression  
Molecular genetics of breast, ovary and prostate cancer  
General aspects of tumor suppressor pathways in cancer initiation and progression  
Stem cells and endocrine-related cancers
