Instructions to authors

Submission of papers
Papers should be submitted to the Editor-in-Chief. Invited reviews should be accompanied by a floppy disk of the text, the disk submission form (available from the Bristol office), camera-ready copy of any figures, and a copyright assignment form. Papers should be double-spaced on one side only of A4 or similar sized paper. British and American spelling are equally acceptable, as long as they are consistent. The final authority for spelling is the Shorter Oxford English Dictionary for British spelling and Websters New Collegiate Dictionary for American spelling. Use of SI units is recommended. Please provide a running heading of not more than 45 characters.

Copyright
Articles are accepted for publication on the understanding that, in consideration for such acceptance, the entire copyright shall pass to the Journal of Endocrinology Ltd. A copyright assignment form will be sent on acceptance and should be returned to the Bristol office.

Floppy disks
Floppy disks should be PC-compatible, using WordPerfect 5.1 if at all possible, and an interchange format (RTF) file.

Figures
Figures should be drawn to a quality suitable for use as camera-ready copy and should be two to three times the final size. They should be labelled in Times Roman typeface, using upper and lower case, and in a suitable size so that, after reduction, the letter size will be 8-9 point.

Indicate the author's name and the figure number on each figure outside the reproduction area. If half-tones are used, please supply black and white glossy prints. If magnification needs to be indicated, please use a scale bar imposed on the photograph. With all figures, please avoid grey or dotted backgrounds, as these do not always reproduce well.

Tables
Include the tables on your disk, on a separate page at the end. Please do not use any special table layouts, but only normal tabs to set up columns.

References
In the text, references should be cited by giving the name of the first author et al. where there are more than two authors. In the reference list all authors should be given and the titles of the journals should be written in full. Examples of reference style are:

Experiments on animals
Papers describing experiments on animals must conform with the Guidelines on the Handling and Training of Laboratory Animals, published by the Universities Federation for Animal Welfare at 8 Hamilton Close, South Mimms, Potters Bar, Herts EN6 3QD,UK, price £2.50.
Experimental procedures on human subjects

Manuscripts must contain a statement that consent has been obtained from each patient or subject after full explanation of the purpose and nature of all procedures used. It must be stated that the investigation was approved by the local Ethical Committee. Copies of Guidelines on the Practice of Ethical Committees in Medical Research can be obtained from the Royal College of Physicians, 11 St Andrew’s Place, London NW1 4LE, UK.

Proofs

Proofs will be sent to the authors for checking. Please check them carefully as we will be working from your floppy disk and the papers will not therefore be proofread by us.
