## CONTENTS

### VOL. 24 NO. 11

**COMMENTARY**

Medical ovariectomy in menopausal breast cancer patients with high testosterone levels: a further step toward tailored therapy
Giorgio Secreto, Paola Muti, Milena Sant, Elisabetta Meneghini & Vittorio Krogh

### REVIEWS

Role of thyroid hormones in the neoplastic process: an overview
Iuri Martin Goemann, Mirian Romitti, Erika L Souza Meyer, Simone Magagnin Wajner & Ana Luiza Maia

Dynamic risk stratification in the follow-up of thyroid cancer: what is still to be discovered in 2017?
Jolanta Krajewska, Ewa Chmielik & Barbara Jarząb

Circulating steroid hormone variations throughout different stages of prostate cancer
Gido Snaterse, Jenny A Visser, Wiebke Arlt & Johannes Hofland

### RESEARCH

**RESEARCH LETTER**

Molecular and phenotypic evaluation of a novel germline TMEM127 mutation with an uncommon clinical presentation
Yilun Deng, Shahida K Flores, Ziming Cheng, Yuejuan Qin, Robin C Schwartz, Carl Malthoff & Patricia L M Dahia

**RESEARCH**

TOP1MT deficiency promotes GC invasion and migration via the enhancements of LDHA expression and aerobic glycolysis
Hongqiang Wang, Rui Zhou, Li Ran, Jianping Xia, Xuchun Yang, Changjie Pan, Na Huang, Min Shi, Jianping Bih, Yulin Liao & Wangjun Liao

**HORMONES AND CANCER: FROM RESEARCH TO THERAPIES**

ENDOCRINE-RELATED CANCER

ISSN 1351-0088 (PRINT)  
ISSN 1479-6821 (ONLINE)
Readers are invited to submit their endocrinology images for entry into the Endocrine-Related Cancer cover art competition. Winners will be selected by the Editor-in-Chief and will have their imagery featured on the cover of an issue of Endocrine-Related Cancer, both in print and online. Winners will be cited in the journal and will receive a professionally printed copy of the journal cover featuring their scientific image.

To enter the competition please email your images to erc@endocrinology.org accompanied with a short caption of 25-30 words explaining what the image depicts, its magnification and who should be acknowledged for its production. Images should be of high quality and resolution of at least 300 dpi at the final published size 220 mm (W) × 100 mm (H).

By submitting an image you warrant that you own the copyright and agree that images may be used in promotional material. Images not selected for use may still be used by the Society for Endocrinology and Bioscientifica for promotional purposes.

The Society for Endocrinology is one of the world’s leading authorities on hormones. Established in 1946, the Society’s aims are to support the advancement of scientific and clinical knowledge and increase research in endocrinology for the public benefit. It also plays a vital role in promoting and supporting endocrinology worldwide.

The Society for Endocrinology offers a range of journals including Journal of Endocrinology, Journal of Molecular Endocrinology, Endocrine-Related Cancer, Endocrine Connections (open access) and Clinical Endocrinology.

THIS ISSUE'S COVER

The image depicts immunofluorescence labelling of estrogen receptor, progesterone receptor and androgen receptor protein in MCF7 breast cancer cells grown on glass coverslips and treated with estradiol and dihydrotestosterone for 24 hours. Image acquired on a Leica SP5 spectrual confocal microscope at 20× magnification.
